# Keina Praisy A

Engineering Student

## About Me

---

Passionate second-year Computer Science and Engineering student seeking an internship that offers opportunities to apply programming fundamentals, expand technical skill sets, and experience real-world software development.

## Internships

---

### Data Analytics

June 2025

JClick Solutions

- Completed a data analytics internship applying Python for data cleaning, visualization, and statistical analysis.
- Developed scripts to automate reporting and extract insights from large datasets, improving efficiency and decision-making.

### Frontend Development

July 2025

Anshos Edu

- Completed a frontend development internship building responsive web interfaces using HTML, CSS, and JavaScript.
- Designed and optimized interactive UI components, improving usability and enhancing overall user experience.

### Full Stack Web Development

Dec 2025

AK Infopark

- Completed a full stack web development internship emphasizing responsive front-end design with HTML, CSS, and JavaScript.
- Built and refined interactive user interfaces, ensuring cross-browser compatibility and improved user experience.

## Projects

---

### Discount Castle Quest

Developed a gamified, interactive project from my original idea.

Link: [https://keinapraisys386-blip.github.io/STEP\\_DISCOUNT/](https://keinapraisys386-blip.github.io/STEP_DISCOUNT/)

### Pixel Canvas

Developed a side project experimenting with pixel art.
